

PAVILION - Summer Layout

- South Pavilion - Wooden Saw Horse Table
- North Pavilion - Metal Rolling Table
- Grid Placement

Pavilion Rules & Guidelines:

1. Each table is limited to only 1 Grid. Additional Grids may only be used with Marketmaster permission after the 8:45 Table Reassignment Meeting. Grids should be stored in the area in front of the Sink (highlighted in Orange on this map).
2. All tables should be set up following the location of overhead lights on the light bar. Any deviations from this layout must be approved by the Marketmaster.
3. West Side tables have priority for sunscreens and are limited to one screen per rollup. Screens are only meant to be used to block sunlight from overheating the Pavilion, and should NEVER be used for display of products.
4. Always lock Community Chest after use. NEVER give out the code to non-vendors.
