## 24-Hour Market Security Line Transition

**Effective June 1, 2024**

April 24, 2024

Hello Market Community,

The 24-hour Market Security Line has been restored, and will be transitioning back to the previously established number for reporting security concerns in the Market: **(206) 682-2253**

Please alert your staff and neighbors to make this adjustment and ensure they will continue to have the most direct access to Security when needed. During this transition, both numbers will continue to be supported until June 1, so please update the saved contact before this time.

**In the event of a medical or criminal emergency, including the presence of a weapon, please call 911 FIRST.** Then contact Security once the city's first responders have been notified and are in route. Alternatively, have a neighbor or secondary witness call concurrently.

Calling 911 first will help ensure proper resources arrive in a timely manner, and support staffing improvements of the city's first responders as reports are tallied.

**Call (206) 682-2253**  
for 24-Hour Market Security Assistance
